
Instant Access Plus Audio

Global Link Communications is connecting you to the world through the finest automated and event audio conferencing services.

Instant Access Plus, our most popular product, provides the finest automated teleconferencing available on the market. *Instant Access Plus* allows you to initiate a conference 24 hours a day, 7 days a week – without the need to make a reservation or rely on an operator. Holding a conference is as simple as dialing your permanent number and entering your conference code.

Main Features of Instant Access Plus

- Up to 96 port audio capacity
- Keypad & web-based audio conference controls
- Free Microsoft Outlook Scheduler Plug-In
- Easy-to-remember pass codes
- Enhanced security feature allowing you to change your Leader PIN
- Integrated, full-service web conferencing with *Instant Access Web*
- International Toll Free service to 41 countries outside the United States
- Enhanced Recording Capability
- Advanced Chairperson Controls

Event Conferencing options are provided in three different levels of service. This allows you to choose the most appropriate level for your event conference.

Event Plus offers a wide range of features and enhancements and is the premier level of event service. Your conference will be professional, interactive and engaging. Customize your conference with a wide range of features such as formal Q&A, Polling, Monitoring, Participant Lists, Recording & Replay, flexible access and pass code protection, and much more. Our Expert Operators manage all the details so you can concentrate on your message.

Event Express offers access code expedited entry into your audio conference call and includes the professional service of Operator assistance throughout your call. You can select from our full range of features to perfectly tailor each conference to your needs.

Automated Event is a completely automated event service. Participants are placed directly into conference in either listen-only or interactive mode. Operators are available for technical support, but not for other advanced event features.
